Re: BUILDING PAD CERTIFICATION

[CONTRACTOR NAME] Project No. _____

[STATE] PE Firm License No. _____

Dear _____:

[CMT FIRM NAME] provided construction inspections and testing during all phases of site/building pad development for the PROJECT _____ located at _____. Copies of the inspection and testing reports have been previously delivered to our clients.

Based on our engineering evaluations, inspections, observations, and results of field and laboratory testing, to the best of our knowledge, the foundation soils, both natural ground and fill, for the building pad were found to comply with the geotechnical engineering requirements, plans and specifications, and applicable industry standards. We hereby certify that the Building Pad is suitable for construction.
