

SINGLE FAMILY RESIDENCE HURRICANE MITIGATION APPLICATION

Job Address: _____

Florida Statute 553.844 requires that certain hurricane mitigation upgrades must be performed when a detached single-family residence is being re-roofed. Required upgrades include the installation of roof to wall connections, when the house was built prior to 1994, has a value of \$300,000.00 or more (excluding land value) and the existing connections are less than an 1/8" by 1" strap, attached with (3) 16 d nails. Re-nailing of roof sheathing and the installation of a secondary water barrier are also required. The following must be completed to confirm compliance with these requirements.

A) Was the dwelling permitted on or after 1994?

Yes _____ **If yes, provide the year:** _____ **and proceed to sections D.**

No _____ **If no, complete section B or C and proceed to section D, as applicable.**

B) As demonstrated by the attached documentation, the insured value of the house is:

\$ _____.

C) The insured value of the house is not available; attached is copy of the Ad-valorem value, which is: \$ _____.

D) If the value is \$300,000 or more, the following must be provided, prior to obtaining a re-roofing permit:

The following Engineer, Architect, Contractor (General, Building, Residential) or Private Structural Inspector has been retained to provide the required roof to wall certification:

Name: _____

License Type: _____ License

Number: _____

Business Name: _____ Phone

Number: _____

Business Address: _____

We understand that a separate permit is required if the existing connections are not adequate. The following Contractor (General, Building or Residential) has been retained for this work:

Name: _____

License Type: _____

License Number: _____

Business Name: _____

Phone Number: _____
